

PRESS RELEASE

**NEXT LEVEL SECURITY SYSTEMS HONORED WITH
2012 SIA NEW PRODUCT SHOWCASE AWARD**

*Next Level Remote Management Services 2.3 takes top prize
in Network Support Solutions category at ISC West 2012*

Las Vegas – March [29](#), 2012 – Next Level Security Systems, a developer of a new breed of unified, networked security solutions, today announced it has been honored as the winner of the 2012 SIA New Product Showcase award in the Network Support Solutions category at ISC West for Next Level Remote Management Services.

“We are honored to accept this award from Security Industry Association as it highlights our efforts in building a service that provides new capabilities to the industry,” said Peter Jankowski, Chairman and CEO, Next Level Security Systems. “We are committed to leveraging the power of our remote management services and continuing to improve our solutions to enable users to more easily manage their security systems from anywhere in the world.”

The NPS awards were established to recognize innovative products, services and solutions in electronic physical security. Technologies showcased through the program are used in the protection of life and property in residential, commercial and institutional settings.

Next Level Remote Management Services (RMS) is a hosted service that enables the management of multiple NLSS Gateways across sites. RMS draws on improvements in cloud-computing technology to offer more than other hosted service models currently used in the security market. The 2.3 version of Next Level RMS includes a grouping function to allow users to consolidate sites to create a comprehensive layered map or floor plan of their network of NLSS Gateways and their connected devices. Next Level RMS 2.3 also enables operators to set

schedules, holidays, event types and risk levels across their entire enterprise. Other features include enhanced multi-site view and customer management tools for channel partners.

For further information on Next Level's comprehensive product line, visit booth #24107 at ISC West 2012 in Las Vegas or visit nlss.com.

About Next Level Security Systems

Next Level Security Systems is a physical security company delivering a new breed of unified networked security technologies. The NLSS Gateway, Next Level's flagship product, is an award-winning, IP-based security management platform that integrates video management, IP access control, video analytics and remote management into a single appliance. It is successfully used in the retail, commercial, education, transportation and government markets. All of Next Level's products, sold through distribution worldwide, combine the performance, sophistication and functionality of enterprise-class security systems into a compact, unified and affordable solution.
